ENVIRONMENT AND ENERGY EFFICIENCY POLICY

28 June 2017

ENVIRONMENT AND ENERGY EFFICIENCY POLICY

Línea Directa's management team's commitment to protecting the environment and correctly managing energy, in addition to complying with legislation, environmental and energy regulations and the requirements adopted by the company in relation to environmental issues and its energy usage and consumption, focuses around continually improving its environmental and energy performances, as well as around these environmental issues and the key energy usages and consumptions within Línea Directa's operations.

Therefore, this policy aims to provide a reference framework in order to set the objectives for the environmental management system.

OUR COMMITMENTS are as follows:

I. Plan and carry out our operations in a structured and rational way, reducing our impact on the environment.
II. Protect the environment and prevent pollution.
III. Constantly work to improve the management system in order to improve the organisation's energy and environmental performance.
IV. Comply with the applicable legal requirements and current regulations
V. Support teams in procuring and designing energy-efficient products and services.
VI. Ensure the availability of information and resources needed to achieve objectives and goals.

This policy sets out to establish an internal culture committed to ensuring that the operations within our offices exercise greater control over the natural resources that we use, by using only what we really need in order to make our operations more sustainable, become more efficient and reduce the amount of energy that we use.

Our Internal Communications department will disseminate this Environmental Policy throughout the company and the External Communications department will publish it on the LINEA DIRECTA S.A. website, meaning that company stakeholders will be able to access it.

The Environment and Energy Efficiency Policy is approved by the CEO, and is managed by the General Services Department which, through its manager, will report and propose objectives associated with this policy to the Corporate Social Responsibility Committee each year.
