Madrid, 28 April 2025.- [Línea Directa Aseguradora](#) has started 2025 with very positive results, maintaining the company's solid and upward trend in terms of business generation, profits, and profitability.

The entity achieved a **net profit of 20.8 million euros** in the first quarter of the year, more than double (**+106.1%**) compared to the same period last year. This result reflects the increase in revenue and customers and a favorable evolution of the insurance margin.

The **combined ratio stands at 92.3%, five percentage points better** than in the first quarter of 2024, and also below the figure at the end of the previous year (92.6%). This reduction in the key indicator of insurance business profitability is due to the improvement of all its components. On the one hand, premium income, and on the other, the reduction in claims and expenses.

Thus, Línea Directa recorded an improvement in the loss ratio of 3.8 p.p. in the first three months of the year, reaching 71.3%. Meanwhile, the expense ratio decreased by 1.2 p.p. to 21.0%, thanks to continuous cost containment and increasing efficiency derived from the growing digitalization of the company's operations.

The combined ratio performance has been positive in all three branches in which Línea Directa operates. In Autos, it improved by 4.6 p.p., standing at 91.9%, below the sector average, which

at the end of 2024, the latest available data, was 101.4%. In Home, despite the rains in the first quarter, it improved to 89.9% (-6.7 p.p.), and in Health to 133.2% (-8.4 p.p.).

Business acceleration

The progressive improvement in Línea Directa's profit is also supported by outstanding commercial performance, with increasing levels of revenue and customer portfolio, confirming the acceleration of the company's commercial pace.

The company reached a volume of **written premiums of 275.2 million euros in the first quarter, an increase of 9.5%** compared to the same period last year, with notable growth in all business lines. Meanwhile, insurance revenue increased by 5.0%.

The **acceleration in the growth rate of the entity's premium income is noteworthy**, with the 9.5% increase **tripling the growth rate of a year earlier (+3.0%)**.

This increase in revenue is driven by solid commercial activity. The **customer portfolio grew by 5.6%, reaching 3.5 million policyholders**. In the last twelve months, Línea Directa has **grown by a total of 184,200 policyholders**, both through the generation of new business and higher customer retention, while maintaining underwriting rigor.

Revenue growth has occurred across all business lines, driven by a competitive multi-product offering, strengthened commercial capabilities, Línea Directa's brand leadership, and increasing business generation through digital channels.

Solid evolution of technical and financial margins

As a result, the insurance margin has experienced a notable improvement, with a **technical result of the insurance activity** of 19.1 million euros, an increase of 202.6% compared to the first quarter of 2024. This evolution is explained by the aforementioned improvement in almost all indicators and results of all Línea Directa's business lines.

In parallel, the **financial result** increased to 10.2 million euros (+10.6%), thanks to higher income from fixed income.

The results of the first three months of the year allow Línea Directa to improve the **return on average equity (RoAE) to 21.8%**, 2.2 p.p. more than at the end of 2024, and to raise its **solvency ratio to 187%**, compared to 185.4% at the end of the previous year.

Notable growth in all lines of activity

By business lines, in the **Autos** segment, issued premiums increased by 9.1% to 213.6 million euros, driven by a portfolio growth of 105,000 policies, reaching 2.56 million customers (+4.3%). Meanwhile, insurance revenue grew by 4.4%.

The **Home** line also maintained a very positive trajectory, with an 8.0% increase in premiums to 42.4 million euros, and a 6.4% increase in insurance revenue. The portfolio grew by 3.3%, exceeding 751,000 policies.

The **Health** business, with 116,000 insureds, recorded the highest increase in terms of revenue, with a 14.4% increase in premiums compared to the previous year. This growth is driven by the company's growth in more comprehensive products, which grew by 15.8% in insureds, and consequently, an improvement in the business mix. Insurance revenue also grew by double digits (+10.1%).

New Products (personal mobility, home occupation protection, pets, and multi-risk businesses) continue to gain weight and now total 69,000 policies, with a 72.1% increase in

premiums, reaching 1.37 million euros.

In the words of **Patricia Ayuela, CEO of Línea Directa Aseguradora**, "We have started 2025 with very positive results, with a favorable combination of business generation and margin improvement, accelerating growth in revenue and customers and doubling profit compared to last year.
