

As part of the company's Sustainability Plan, Línea Directa Aseguradora, in addition to being committed to improving energy efficiency and reducing consumption, also pays special attention to waste management.

Línea Directa Aseguradora is committed to sustainability and the circular economy, integrating environmental criteria into its waste management operations, as can be seen in the following table. More than 80% of the Group's waste is integrated into reuse, recycling, or recovery processes

Linea Directa presents waste management and recovery data from 2022 to 2025

Waste management				
	2022	2023	2024	2025
Total waste (kg)	112.042	113.967	150.241,61	146.429
Hazardous waste (kg)	40.435	40.059	83.826,61	55.063
Non Hazardous waste (kg)	71.608	73.908	66.415	91.365
Paper and cardboard (kg)	17.898	21.915	23.849	25.564
Plástico (kg)	14.010	18.777	34.912	30.200
Other non hazardous waste (kg)	39.700	33.216	7.654	35.601
Waste recovery				
	2022	2023	2024	2025
Recycle /reused waste (kg)	81.156	82.844	124.388,61	127.314
Discarded waste (kg)	0	10.499,2	0	15.112
Waste sent to landfill (kg)	0	0	3.717	3.480
Incinerated waste (with or without recovery) (kg)	20.202	19.044	1.209	0
Waste otherwise disposed of (kg)	0	1.277	20.927	258
Waste with unknown disposal method (kg)	10.684	303	0	264

Within the Linea Directa group, the activities with the greatest waste generation and impact are the high-performance centers (CAR).

With the objective of reducing waste generation and increasing the reuse, recycling or other recovery of the waste produced. **CAR Madrid** earned the **“Zero Waste” certificate**, which confirms that more than 90% of the waste generated by the workshop is treated for recovery; and **CAR Barcelona** earned the **“Towards Zero Waste”** certificate, which indicates that more than 60% of the waste produced as a result of production activity has undergone recovery treatments

Water consumption

Línea Directa Aseguradora calculates and manages water consumption across its operations, focusing exclusively on the common areas of its buildings and its two CAR repair centers in Madrid and Barcelona.

	2022	2023	2024	2025
Water consumption (MI)	16,12	15,27	14,32	16,20
