

As part of the company's Sustainability Plan, Línea Directa Aseguradora, in addition to being committed to improving energy efficiency and reducing consumption, also pays special attention to waste management.

Línea Directa Aseguradora is committed to sustainability and the circular economy, integrating environmental criteria into its waste management operations, as can be seen in the following table. More than 80% of the Group's waste is integrated into reuse, recycling, or recovery processes

Linea Directa presents waste management and recovery data from 2022 to 2025

| Waste management                                 |         |          |            |         |
|--------------------------------------------------|---------|----------|------------|---------|
|                                                  | 2022    | 2023     | 2024       | 2025    |
| Total waste (kg)                                 | 112.042 | 113.967  | 150.241,61 | 146.429 |
| Hazardous waste (kg)                             | 40.435  | 40.059   | 83.826,61  | 55.063  |
| Non Hazardous waste (kg)                         | 71.608  | 73.908   | 66.415     | 91.365  |
| Paper and cardboard (kg)                         | 17.898  | 21.915   | 23.849     | 25.564  |
| Plástico (kg)                                    | 14.010  | 18.777   | 34.912     | 30.200  |
| Other non hazardous waste (kg)                   | 39.700  | 33.216   | 7.654      | 35.601  |
| Waste recovery                                   |         |          |            |         |
|                                                  | 2022    | 2023     | 2024       | 2025    |
| Recycle /reused waste (kg)                       | 81.156  | 82.844   | 124.388,61 | 107.501 |
| Discarded waste (kg)                             | 0       | 10.499,2 | 0          | 38.928  |
| Waste sent to landfill (kg)                      | 0       | 0        | 3.717      | 3.480   |
| Incinerated waste (with or without recovery (kg) | 20.202  | 19.044   | 1.209      | 19.813  |
| Waste otherwise disposed of (kg)                 | 0       | 1.277    | 20.927     | 15.112  |
| Waste with unknown disposal method (kg)          | 10.684  | 303      | 0          | 522     |

Within the Linea Directa group, the activities with the greatest waste generation and impact are the high-performance centers (CAR).

With the objective of reducing waste generation and increasing the reuse, recycling or other recovery of the waste produced. **CAR Madrid** earned the **“Zero Waste” certificate**, which confirms that more than 90% of the waste generated by the workshop is treated for recovery; and **CAR Barcelona** earned the **“Towards Zero Waste”** certificate, which indicates that more than 60% of the waste produced as a result of production activity has undergone recovery treatments

Water consumption

Línea Directa Aseguradora calculates and manages water consumption across its operations, focusing exclusively on the common areas of its buildings and its two CAR repair centers in Madrid and Barcelona.

|                        | 2022  | 2023  | 2024  | 2025  |
|------------------------|-------|-------|-------|-------|
| Water consumption (MI) | 16,12 | 15,27 | 14,32 | 16,20 |
